About i3net

i3net, the Illawarra Innovative Industry Network, is a network of industry based companies working from the Illawarra.

From bolts to blast furnaces, from 3D printing to submarines, i3net provides access to the Illawarra's vast range of manufacturers, engineering service providers and industrial suppliers.

The network was established over 20 years ago to promote the collective capability of industry to local, national and international markets.

The power behind the network is the depth of capability and skills that can be provided by one powerful industry resource.
