Capral Industrial Solutions

Capral Aluminium is Australia's largest manufacturer and distributor of aluminium products into the marine, defence, transport and building industries. Capral's offer includes rolled and extruded products along with aluminium processing and light fabrication solutions. In addition, Capral offers customers the ability to create their own exclusive profiles.

DIFFERENTIATORS

- Aluminium processing and light fabrication including a 7-axis state-of-the-art robotic machining centre
- Nationwide distribution and export capabilities.
- 9 extrusion presses located throughout Australia
- Dedicated 44MN 12 inch press, capable of extruding shapes up to 400mm CCD
- In-house aluminium finishing facility
- In-house design support team.
- On site Quality Assurance
- Rapid 3D print prototyping
- Global sourcing network

ACCREDITATION & CERTIFICATION

- Capral Aluminium extrusions are produced to the chemical composition, mechanical property and dimensional tolerances in AS/NZS 1866:1997
- Capral is also accredited to:
 - AS/NZS ISO 9001:2015
Quality Management Systems
 - AS/NZS ISO 14001:2004
Environmental Management Systems
 - AS/NZ 4801:2001
OHS Management Systems Accreditation
 - ISO/IEC 17025.
NATA Accredited Mechanical Testing Laboratory
 - Safety Accreditation
- All major international marine classification societies including DNV (Det Norske Veritas) and Lloyds Register
- Members of the Aluminium Stewardship Initiative

Capral Building Products

Capral Aluminium has one of the largest research and development building products teams in Australia. Capral brings to market, leading products from brands such as AGS, Urban, Schüco and Amplimesh®, to compliment a range catered to the defence industry.

DIFFERENTIATORS

- Blast resistant window systems.
- Intruder and bullet resistance window systems
- Break-out resistance window and door systems
- Security Screens and perimeter protection systems
- NATA Accredited Mechanical Testing Laboratory
- Dedicated in-house design support team

ACCREDITATION & CERTIFICATION

- Capral Aluminium extrusions are produced to the chemical composition, mechanical property and dimensional tolerances in AS/NZS 1866:1997
- Capral is also accredited to:
 - AS/NZS ISO 9001:2015
Quality Management Systems

OHS Management Systems Accreditation
 - ISO/IEC 17025
NATA Accredited Mechanical Testing Laboratory
 - Safety Accreditation
- Declare label certified
- Schüco Cradle to Cradle

TESTING

Controlled fire testing - furnace partially opened.

Fire testing in full progress

Testing of blast resistant systems for reliable protection in the event of an explosion.

See below, the before and after of the blast wave impacting the window and door frame.

MEMBERSHIPS

- Australian Window Association Member
- National Security Screen Association Member
- HIA Member
- Green Building Council Australia Member
- Australian Institute of Surface Finishing Member
